Herald's Station
Formal challenge / Accepted / awaiting the board / From House Azhemar
A formal challenge from House Azhemar
House Azhemar of Solforiz names Keepers of the Umbra in a formal challenge at the next Muster. A new banner, they say, must prove it belongs on the field.
The wager
These are the terms of this Muster conflict against Solforiz.
If your representative is taken in defeat
They are held captive until your house wins a later Muster against Solforiz.
If they are taken in a victory or a draw
They come home wounded and recover after one further recorded match.
Whatever the result
Victory earns recognition and House Ombreval's favour; defeat costs that favour.
If House Ombreval's representative is taken
They will demand an accounting from your house.
The rules of chess do not change.
